Your Royal Highness

I was most distressed to read in the West Australian of the passing of your dear father and hasten to express the grief I share with you and your family.

The admiration I have for HRH Prince Leonard's courage in the face of adversity and little support, knows no bounds. He saved your heritage with a brilliant mind and left a legacy in land and spirit for his descendants.

I value the correspondence I had with HRH Prince Leonard and shall miss the physics and mathematics he applied to his evaluations of events. HRH Prince Leonard was gifted with a mind in which mysticism played a part to give him strength from the infinite to confront all problems with clarity and ability.

I cherish his memory as I admired his mind and pray with you in gratitude for his life, also that all the people he leaves behind will have learned that triumph does not come easily, but with persistence, honesty of purpose, and faith of heart, triumph prevails.

With respect HRH Prince Graeme
Yours sincerely

Rabbi
